

Connecting to Eduroam

Page 1 - Windows Computers

Page 2 - Mobile Devices

Eduroam Wi-Fi can be used to connect devices to Wi-Fi on the Borders College Campuses. You must have either a staff or student account to be able to do so.

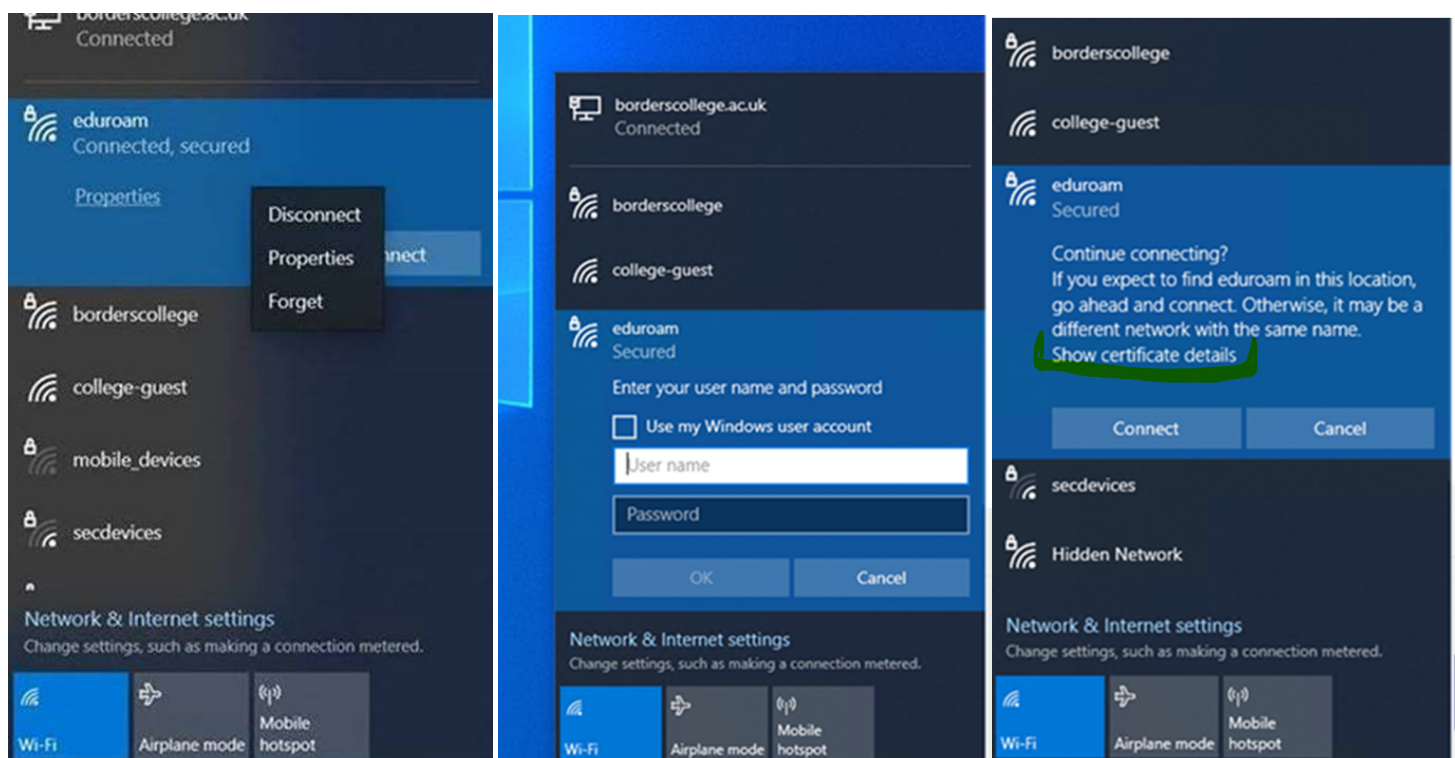

Windows computers

1. Forget the Eduroam connection.
2. Find Eduroam WiFi and click connect.
3. Use your Borders College credentials:

username: 0012345@borderscollege.ac.uk or 0012345@students.borderscollege.ac.uk

password: Your college password

4. When asked whether you wish to continue connecting, click **'Show Certificate Details'** and check that the certificate has been issued to **sbc-nps03.borderscollege.ac.uk**. Once you're satisfied that the certificate is correct, click **'Connect'**.
5. Wait for Eduroam to connect.

Mobile Devices

1. Connect to the Internet and download the **GetEduroam** App from device's app store.
2. Forget the existing Eduroam Wi-Fi network (if it's already saved)
3. Open the new **GetEduroam** App.
4. In the **Institution field**, find Borders College.
5. Enter your credentials

username: 0012345@borderscollege.ac.uk or 0012345@students.borderscollege.ac.uk password:
Your college password

6. You should now see '**Enjoy using Eduroam, WiFi is now configured on your device**'.
7. Close the App.
8. If in range of Eduroam you should be automatically connected, however, if not find the network manually and press connect.
